

Karthik Rao

Cybersecurity Engineer

PROFESSIONAL SUMMARY

Cybersecurity graduate with knowledge of network security, vulnerability assessment, authentication, and security monitoring.

TECHNICAL SKILLS

- Python, C, SQL
- Network Security
- Linux
- Cryptography
- Ethical Hacking
- Vulnerability Assessment
- Wireshark, Burp Suite
- Git

EXPERIENCE

- Cybersecurity Intern — SecureNet Technologies | 2025
- Performed basic vulnerability assessments.
- Analyzed network traffic.
- Assisted in security testing and documentation.

PROJECTS

- Network Intrusion Detection — Built a machine learning-based intrusion detection model to classify network traffic into normal and malicious categories.
- Secure File Sharing System — Developed a file-sharing application using encryption with authentication and access control.

EDUCATION

B.Tech in Cybersecurity — 2025
