

Neha Kapoor

NLP Engineer

PROFESSIONAL SUMMARY

NLP Engineer interested in developing text classification, sentiment analysis, information retrieval, and LLM-based applications.

TECHNICAL SKILLS

- Python, SQL
- NLP, Machine Learning
- NLTK, SpaCy
- Transformers, Hugging Face
- Sentence Transformers
- LangChain, FAISS
- BERT, LLMs

EXPERIENCE

- NLP Intern — LanguageAI Systems | 2025
- Developed NLP preprocessing pipelines.
- Built text classification models.
- Experimented with transformer-based language models.

PROJECTS

- Social Media Sentiment Analysis — Classified social media posts as positive, negative, or neutral using TF-IDF and Logistic Regression.
- Resume Recommendation System — Built a resume-to-job matching system using NLP, combining keyword matching with semantic similarity.

EDUCATION

B.Tech in Artificial Intelligence and Data Science — 2025
