

Rohan Mehta

Data Scientist

PROFESSIONAL SUMMARY

Data Scientist experienced in exploratory data analysis, statistical modeling, machine learning, and business intelligence.

TECHNICAL SKILLS

- Python, SQL, R
- Pandas, NumPy, Scikit-learn
- Matplotlib, Seaborn
- Statistics, EDA
- Regression, Classification, Clustering
- Power BI, Excel

EXPERIENCE

- Data Science Intern — Insight Analytics | 2025
- Performed exploratory data analysis on business datasets.
- Built predictive models for customer behavior.
- Created dashboards and data visualizations.

PROJECTS

- Sales Forecasting — Built regression models to forecast monthly sales; compared Linear Regression, Random Forest, and Gradient Boosting.
- Customer Segmentation — Applied K-Means clustering to identify customer segments and visualized clusters using PCA.

EDUCATION

B.Tech in Computer Science Engineering — 2025
